

Stefano Inama with his father Giuseppe first planted the then unpopular Soave in the 90's. They approached Soave with a minimalist, almost ancestral oenology. The Vin Soave is the most representative with a blend of Garganega from Inama's estate vineyards around Soave. Alive, bursting with flavor and long-lived.

Discover Soave

Stefano Inama first created Carmenere Più from the Colli Berici vineyards. An appealing and affordable blend deliberately vinified for early drinking. Carmenere's signature notes of soy sauce and cocoa are supported by Merlot.
